

## World leading events for Energy and Marine sectors

*Leading the Way: Clean Energy, Thriving Oceans, Hydrogen Innovation, Sustainable Futures*

[LEARN MORE](#)

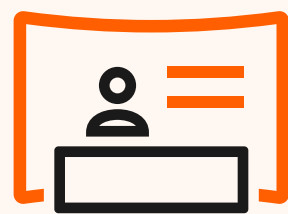

# Shaping the Future

At RX, our Energy & Marine Portfolio is driving the clean energy transition and fostering sustainability across global energy and marine sectors, in alignment with the UN's sustainability goals.

Our leading events spotlight clean power, Oil & Gas, hydrogen, and maritime industries, providing a vital platform for thought leadership as well as showcasing innovative products and services. Through these events, we facilitate valuable networking opportunities, enabling industry peers to stay updated on the latest trends and technologies. This approach empowers us to tackle today's most critical climate challenges and pave the way for a sustainable future.

RX is committed to advancing the energy and marine sectors by delivering high-quality content and fostering strategic partnerships. Together, we are shaping a resilient future and driving meaningful progress in the industry.

# Engineering a Net Zero Future. Together

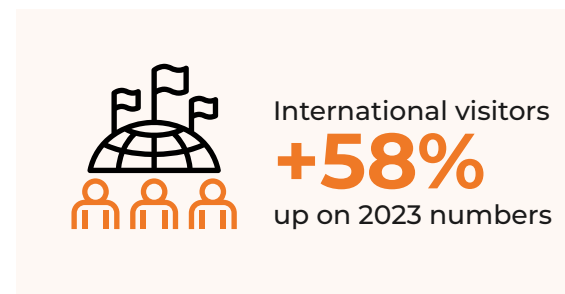

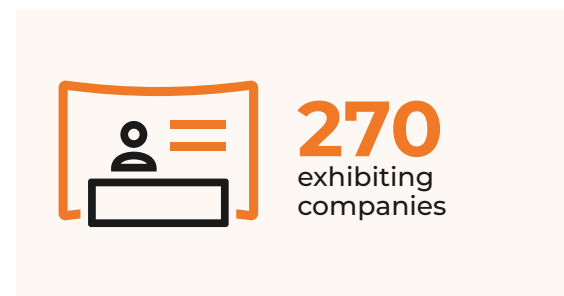

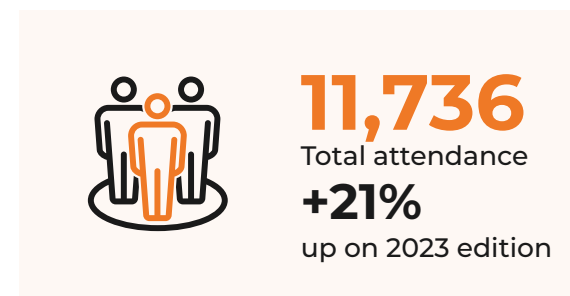

All-Energy takes pride in being the UK's largest low carbon energy and full supply chain clean energy industry event; while the co-located Dcarbonise is aimed at private and public sector energy end users.

With the UK aiming to become a clean energy superpower by 2030, our event is expanding to support this vision. We host thousands of visitors from around the world bringing together clean power and low carbon energy professionals, facilitating connections and showcasing innovation and technology meaning you can find the relevant people to conduct business with, all in one location.

We'll introduce you to the right people representing the entire industry, engineering and technology community. It's the UK's best opportunity to expose your brand to potential customers, position it as an expert in your sector, network with the community and, explore all the advantages presented to you.

## Show Features

- Main conference programme
- Seven show floor theatres
- Innovation Hub
- Future Talent Hub
- FutureGrid Hub
- Hydrogen & Energy Storage Hub
- Wind & Marine Energy Hub
- Power Club
- Meet the Buyer
- All-EnergySocial

It's a well organised event and ideal for networking and hearing from industry leaders.

*Hydrogen Project Engineer, Black & Veatch*

Best Exhibition I have attended as an exhibitor, in nearly 30 years in various positions / companies

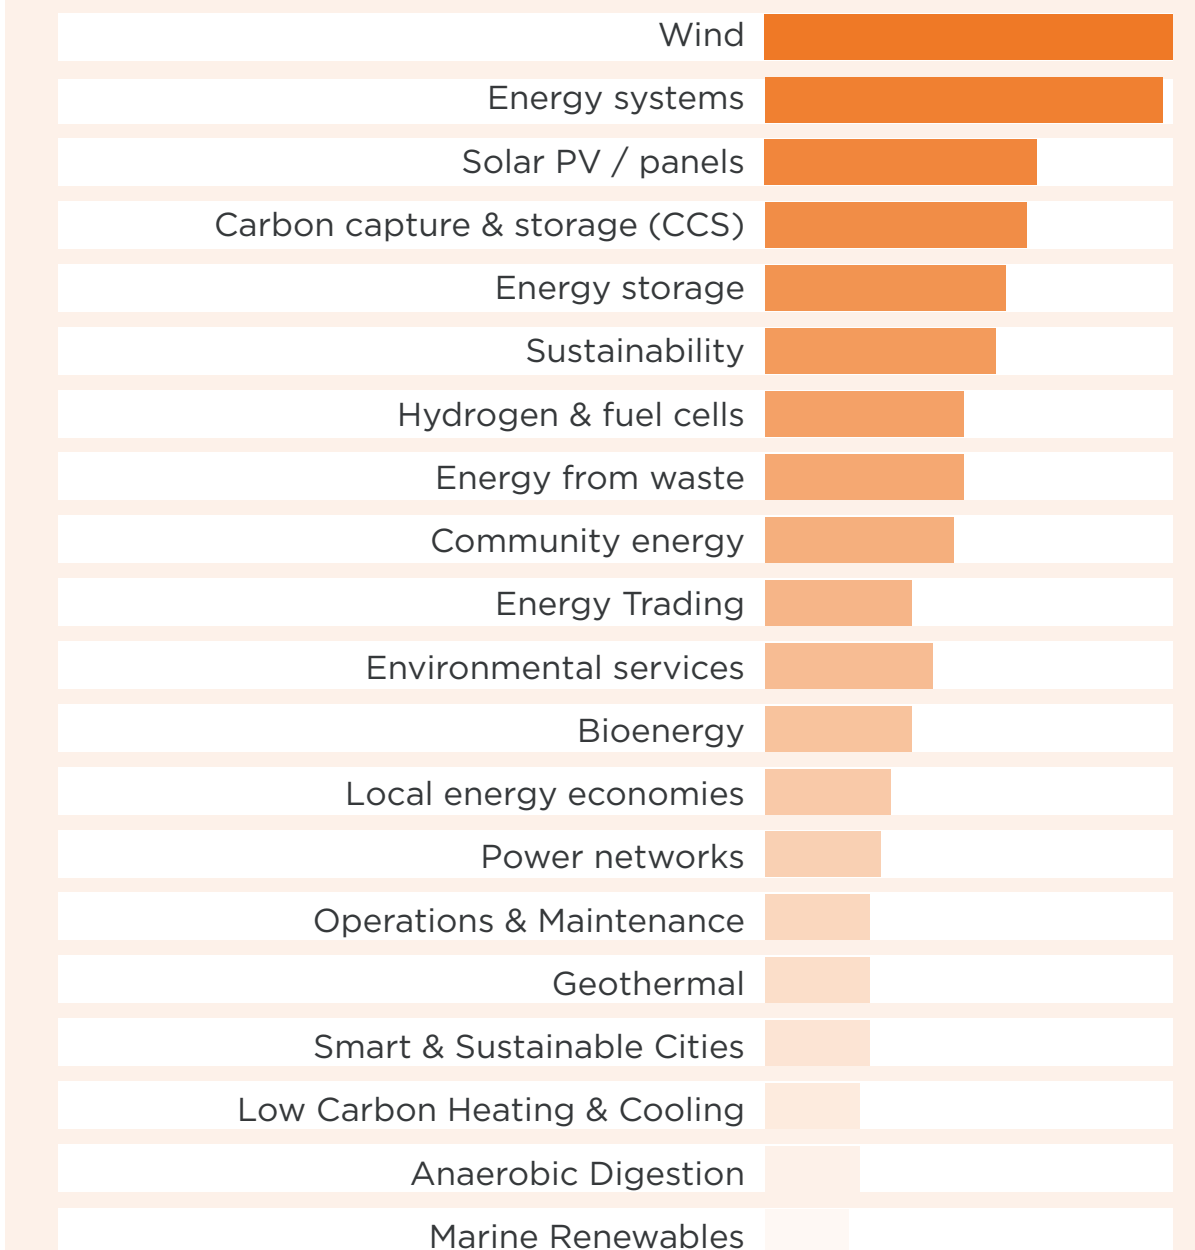

*Business Development Manager, Bosch Thermotechnology Ltd.*

The one place in the year you get to meet the who's who of the renewables sector

*Senior Development Manager - Wave, Tidal & Hydrogen, HIE, Scottish Enterprise*

# The Energy to Lead

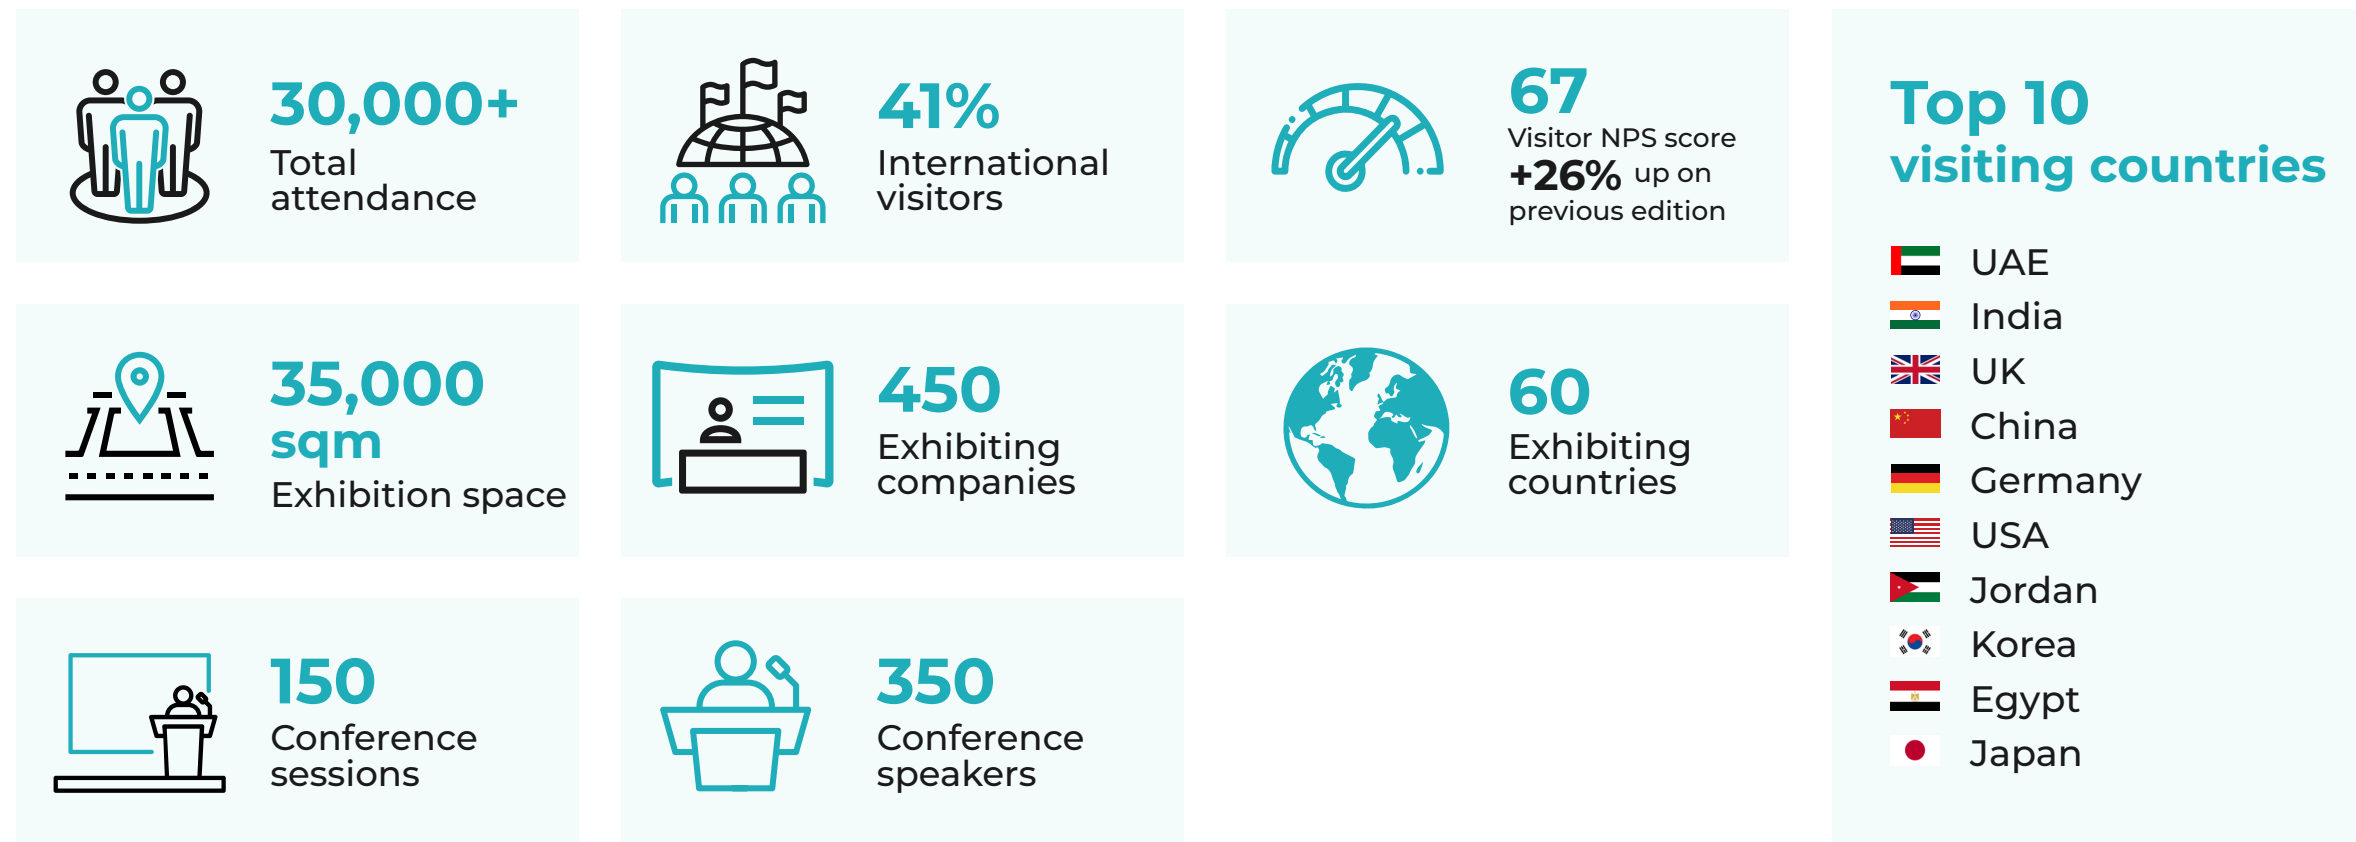

The World Future Energy Summit is a global think tank, powered by global innovation, pioneering minds and groundbreaking insights. Bringing together industry influencers, problem solvers and cutting-edge solutions, we're focused on creating the blueprints for a sustainable future.

The 2024 edition of the World Future Energy Summit saw a record increase in international visitor attendance, an entire additional hall and three new forums. Exhibitors surpassed last year's numbers and media and marketing grew exponentially compared to 2023.

This year also brought in a strong focus on innovation and startups, the highest female participation to date, VIP visits, and a continuation of the COP28 outcomes.

## Show Features

- 5 conferences
- The Buyers Programme
- Innovation Trial
- Green Hydrogen Innovation Hub
- Cleantech showcase
- CLiX.
- Green Finance Forum
- Pathway to 1.5C Forum
- eMobility Forum
- Sustainability Business Connect programme

## Stakeholders and Partners

The World Future Energy Summit is important not only for the UAE and Middle East but also serves an international platform towards the goal of sustainable future.

*Domen Bocker, General Manager Sales and Marketing GORICA*

We know that effective climate action cannot take place if we work in silos. Instead, we believe in the power of convening diverse voices to promote dialogue, knowledge exchange, and creative problem-solving.

*Opening Address of the World Future Energy Summit 2024  
Her Highness Sheikha Shamma bint Sultan bin Khalifa Al Nahyan, President & CEO, UAE Independent Climate Change Accelerators (UICCA)*

# Connecting the Global Ocean Technology Community

Oceanology International is the global forum where industry, academia and government connect to discover innovative solutions, from the ocean technology, engineering and science communities, to improve strategies for exploring, protecting and sustainably operating in the world's oceans and waterways.

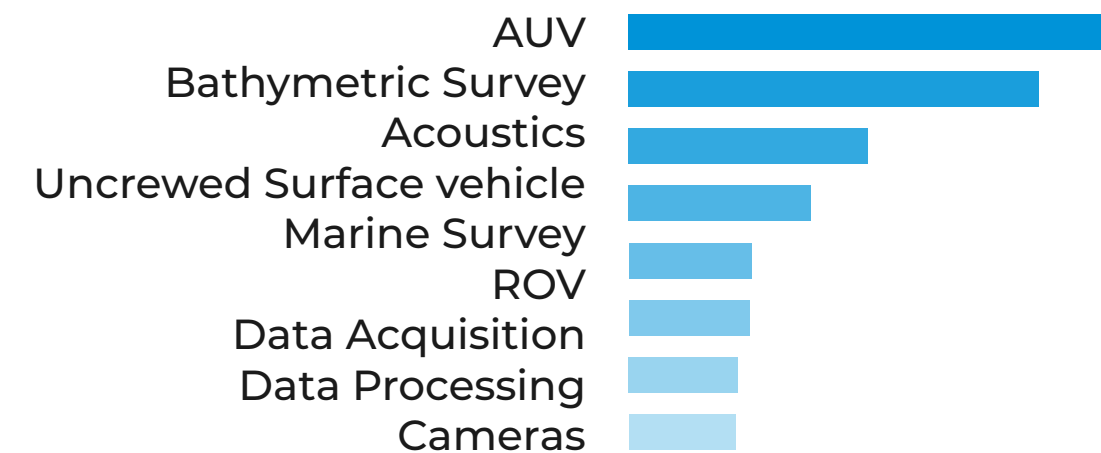

The 2024 edition saw a +47% uplift in attendees and was the largest Oi in over 10 years, welcoming 7,527 ocean professionals to London. Showcasing a sea of cutting-edge technologies and solutions, sparking collaboration and discovery among attendees, proving once again to be a productive and positive experience for all participants.

Oi plays host to over 15 distinct end-user industries, from offshore wind, oil & gas, marine science, defence, construction and much more, all unified by their use of ocean technology.

## Show Feature

- Exhibition
- Catch the next wave
- B2Match – brokered meetings with Innovate UK Edge
- Dockside demonstrations
- Ocean ICT
- Ocean Future
- Conference programme
- Show Floor theatre programme
- Future Tech Hub
- OceanSocial

## Solutions that are in High Demand

## Attendee Sectors

Marine Renewables, Offshore Oil & Gas, Offshore, Construction, Defence, Marine, Environmental Protection, Ports, Harbours and Terminals, Government, Academia, Coastal, Engineering/Protection, Ships and Shipping, Utilities/Power, Fisheries and Aquaculture, Maritime Security, Marine Science, Telecoms, Ocean Mining

Oi24 has been good, very positive. It is a good atmosphere and nice to see the Far East coming back.

*Dr Richard Williams, Managing Director, Osil*

This is our second time exhibiting and it has really exceeded our expectations. It has been constantly busy, even up until the last day. Oceanology International is one of the key shows for us..

*Amy Gibson, Developer, Subnero*

We have had lots of footfall and are very pleased with the size of the stand and the location. In the build up to the event, the social media activity around Oi really raised our engagement levels.

*Dr Richard Williams, Managing Director, Osil*

# Accelerating the Transition to a Better Energy Future

The transition to a sustainable energy future depends on our industry. SPE Offshore Europe helps the offshore energy value chain to accelerate the transition to a better energy future by uniting the power of expertise, knowledge and innovative technology to drive progress. OE is a platform for collaboration, progress and results, designed by the industry for the industry, both with its year-round digital content and at its hub in Aberdeen. This is the meeting point for a community with a common purpose, expressed in the show's strong spirit of engagement and teamwork.

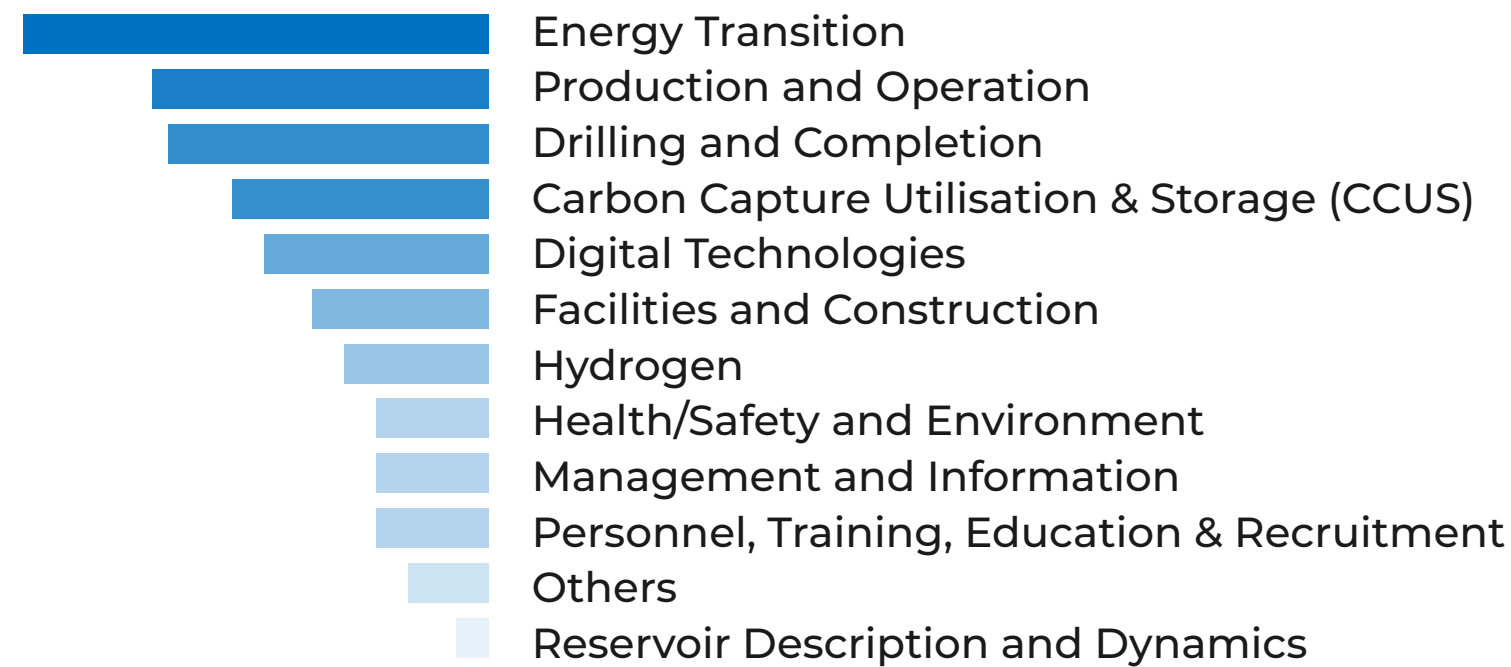

The conference and digital content, organised and backed by The Society of Petroleum Engineers (SPE), is known as a source of high-quality independent content delivered by the industry's leading voices. No other event offers the industry this level of commercial, strategic and technical learning free of charge.

OE reflects an industry of continuous innovation that mirrors the evolution of North Sea energy. We set our sights on the next frontier: mapping the journey to a sustainable, better energy future. If you're part of the community then this is your story in the making, we look forward to welcoming you.

## Show Feature

- Exhibition
- SPE Conference
- Show Floor theatre programme
- Energy Transition Zone
- Decommissioning Zone
- Innovative Technology Zone
- Hydrogen Hub
- Future Talent Hub
- Offshore Wind Hub
- TIDE Programme
- OESocial

<b>30,000+</b> Total attendance	<b>17,100+</b> Unique attendees
<b>70</b> Countries attended	<b>150</b> Conference speakers
<b>800</b> Exhibiting companies	<b>Top 3 visiting countries</b> UK Norway US
<b>11</b> International pavillions	

A great opportunity to connect colleagues, showcase tech and Scotland's capabilities to not only a domestic but international audience.

I would definitely recommend, we got a good number of leads and were able to cement relationships with existing suppliers and customers at the stand.

Excellent experience, great way to promote your business, speak to existing customers and potential customers, great for creating opportunities and Leads.

# The World's Largest Dedicated Hydrogen Event

The industry's most influential event, World Hydrogen Summit & Exhibition is recognised as the official meeting place where hydrogen deals get done and key partnerships are forged.

Join global industry experts to exchange key insights, build new alliances and sign bold agreements that will kickstart the next wave of hydrogen project developments into the 2030s. As we move from feasibility studies into the T&Cs, the second half of the decade is set to deliver projects over the line and see the emergence of a global hydrogen trade system. The time for action is now.

From demand creation to infrastructure development, certification to finance and reaching FID, join global leaders at the forefront of hydrogen projects sharing real case studies and strategies to unlock.

## Show Feature

- Exhibition
- C-Level Summit
- Three H2 Tech Series stages
- World Hydrogen Awards
- Site visits to hydrogen projects at the Port of Rotterdam

## In partnership with

The event was well organized. Attracted all decision makers from all around the world to the hydrogen hub.

*Jamal Al Balushi, Head Corporate Affairs, Energy Development Oman*

Fantastic design, great panels, outstanding moderation, excellent exhibitors

*Florence Lindhaus, Head of Hydrogen, AHK Australien*

It was an awesome summit to understand the state of the industry (you get a snapshot view of the current state of the hydrogen industry), make valuable connections and insightful discussions, and pave the way for a low carbon hydrogen future. Only together, can we close the gap and the World Hydrogen Summit does exactly that - brings us all together

*Adi Maha, Business Development Manager, Ramboll Danmark*

# The Hub for the Global Hydrogen Community in the Americas

Having established itself as the premier gathering for the global hydrogen community in the Americas region, the Hydrogen Americas 2025 Summit & Exhibition returns to Washington D.C. on 3-4 September 2025. The event will be hosted at the iconic Gaylord National Resort and Convention Center, featuring a renowned summit, the popular H2-Tech Series, a world-class exhibition and product showcase arena highlighting the latest advancements in hydrogen technologies, energy storage applications and CCUS.

Following the selection and subsequent award negotiations of 7 Regional Clean Hydrogen Hubs, all eyes are on the U.S. for the expected next phase of developments. Hydrogen Americas continues to be the meeting point for collaboration across the H2 value chain and a key government mouthpiece for dissemination of announcements and lessons learned that will shape the future of the hydrogen business worldwide.

## Show Feature

- Summit
- H2-Tech series
- Networking sessions
- Hydrogen in Action Zone
- Gala dinner

**4,000+**  
Total attendance

**100**  
Exhibiting companies

**35**  
countries attended

**190**  
Speakers

**1,342**  
attending companies

It's such an important opportunity for us to celebrate the achievements that we've had but also to continue to look forward on opportunities to build new partnerships and to develop further strategies to advance clean hydrogen. I always leave here learning something and I know that folks who participate year after year agree with that.

*Jeff Marootian, Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy*

Hydrogen Americas is a terrific event because it truly does bring all the stakeholders together that we need. As an environmental NGO working on climate change, we feel like we have an important seat at the table here at this event and we've really been welcomed in

*Beth Trask, Vice President, Global Energy Transition, Environmental Defense Fund*

We're back here again this year because we had a really good experience in our first year. We've been very impressed actually with the broad scope of the people that have been here, we've had many enquiries from not only equipment suppliers but also project developers, so investors and proponents alike.

*Chris Wood, Executive Director of Invest SA, Department for Trade and Investment, Government of South Australia*

# Uniting Government & Industry to Accelerate Hydrogen Development

The highly anticipated global hydrogen event in the Asia Pacific is returning to the vibrant city of Sydney. This groundbreaking gathering will unite influential leaders and visionaries from the hydrogen industry worldwide, creating a unique platform for collaboration and innovation.

As the hydrogen industry regroups and re-assesses the progress made to 2025, join us in Sydney to hear from global Ministers and CEOs sharing lessons learnt and recharting the pathway to meet 2030 and 2050 climate goals. With over 3000 industry leaders attending from across the global value chain, this is your opportunity to make key connections, take the pulse of the hydrogen industry and sign the new deals that will further develop the global hydrogen market.

**3,000**  
Total attendance

**150**

**100**  
Conference speakers

**700**  
delegates

The event was well-organised. The staff were very supportive and communicative leading up to the event, speaker sessions ran on time, the exhibition hall looked professional, and stalls were easy to set up for exhibitors.

*Sona Jain, Commercial Lead, HydGene Renewables*

The exhibitors' hall was EXCELLENT! Made some great connections, including ones relevant to current projects that I'm sure will develop to significant business partnerships. Very well done!

*Anne Caerdinael, Project Manager, Major Project Facilitation, Queensland Treasury*

A very good follow-up to the inaugural event. Building nicely. Good to see more APAC nations participating.

*Matthew Hingerty, Deputy CEO, Star Scientific Ltd*
